

“MY CHILD WAS VERY LOST UNTIL RCYS STEPPED IN”

We love celebrating successes and this one comes from seven months of work with RCYS counselor, Raylene Stebbins. The young client’s mother shared about challenges her daughter was struggling with in school that were affecting her self-confidence. The client’s discouragement threatened to stand in the way of any plans for higher education.

“Since working with Raylene at RCYS, my daughter loves school and is now experiencing success as a freshmen at UCO. Thank you for what you were able to do for my daughter.”

TEEN RECEIVES UKULELE THROUGH CREATIVE ARTS PROGRAM

One of the many services we offer under our prevention program are creative arts classes. The sessions are weekly and held in a one-on-one setting. Sixteen year old Daisy has been in the ukulele and songwriting program for the last nine months. Daisy recently completed writing her very first song, and was gifted with her own ukulele to honor this amazing milestone.

“Through this program, I got to learn more about myself and what I want to do. Writing this song helped me with my anger.”

COMMUNITY IMPACT

The RCYS Prevention Team will once again be teaching Life Skills curriculum for Zebra Stripes students this summer.

Zebra Stripes is an all-day, five-day-a-week educational summer program by Claremore Public Schools for students K-5th grade.

“
We are here to help youth in our community to be happy, healthy, and successful individuals.

–Ellen, Prevention Coordinator
”

COUNSELORS RECEIVE FAMILY SYSTEMS TRAINING

Recently, nine members of our clinical team completed the *Family Systems Trauma Model* (FST) advanced training. This particular model teaches therapists how to treat not just the individual they are working with, but the entire traumatized family.

Congratulations to the RCYS clinical team on becoming more trauma informed and how to positively impact the entire family!
